Subject: Don't clear-cut this forest!

CAUTION: External Email

Thank you for allowing public comment on Project 3018093 at 9666 51st Ave S. Please hold a public meeting to review the environmental and landuse issues of the proposed clear-cutting of a large wooded lot bordering Kubota Gardens. Consider this to be one of the 50 requests required for a meeting!

This is a significant forest that should never be clear-cut. Why should it be? We think it needs to be preserved as one of the last remaining truly wild places in Seattle. Please consider public input before allowing any irreparable damage to occur. Once the forest is logged it will be lost to us and future generations forever. Mature trees are far more important than another development! We don't need the development, but we do need the trees! Please don't let this travesty happen!

**Respectfully,
Steven J Wells
